Pronounced 'aftershelken', it means the after sleigh - a tune that's played after a sleigh ride.

I recall an occasion when we were to conduct a square dance workshop for young people. Before we began the session, Les pointed his bow at the group and explained that square dancing was not a game, but an art, consisting of a series of beautiful patterns formed with graceful steps and movements, performed to the direction of the caller, in time with the music. He made it clear that there was no room for jumping, jerking or rough-housing in the process. - Dean Wooden
